## Mission

The **First purpose of Connecting** is to encourage hospitality and networking, internationally, among people who travel without a partner.

The **Second purpose of Connecting** is to report without bias about going solo vacation alternatives or any sort of holiday option that can be designated sensitive towards the needs of people who travel alone.

## Examples:

- **Going Solo Trips**: Any journey that might comfortably, safely and cost effectively be undertaken alone.
- **Lodging**: Intimate, friendly, usually small, often family-run establishments, close to public transport, dining, and entertainment facilities.
- **Resorts**: Beach, ski, spa, golf, tennis, or any activity-oriented vacation premise, providing its pricing policy helps avoid single supplements (see explanation of terms below).
- **Tours & Cruises**: Any packaged holiday arrangements priced to avoid single supplements (see explanation of terms below).
- **Clubs & Organizations**: Social, sports, adventure, arts, crafts, or any group that includes travel in its activities and welcomes single participants.

## Explanation of Terms Used:

- **Single Supplement**: Most packaged holidays are priced so that each of two people pay a per-person rate for shared accommodation. A single participant who either cannot find a room mate or wants to occupy a room alone normally must pay a “single supplement” surcharge.

- **Guarantee Share Option**: For singles who are willing to share accommodation, some tour organizers and cruise lines pair-up individuals and guarantee that a single pays no more than the per-person, double occupancy rate, even if a room mate cannot be found.

Any travel or vacation supplier that offers “guarantee share” options or otherwise avoids single surcharges is considered single-friendly and qualifies to have its holidays publicized in Connecting.

The **Third purpose of Connecting** is to foster the above concepts within the ideals of responsible tourism.

Every effort is made to include in this Directory **ONLY** companies and organizations whose packaged holidays and pricing policies are sensitive to the needs of people who travel alone. The information contained herein is subject to frequent revision due to circumstances beyond the control of Diane Redfern or any Connecting member. A listing here does not constitute a personal recommendation or guarantee of holiday satisfaction. Neither Diane Redfern nor any Connecting member can accept responsibility should holiday dissatisfaction arise from claims made in these listings.
